Notes on project demo and presentation

1. Each group will do the demo and presentation for their project.
2. Demo is based on the final submission. Test cases will be given.
3. Each group will have to prepare their slides for the presentation. The presentation slides should at least include:
   a. Team member’s contribution (1 slide)
   b. Challenges in this project (1-2 slides)
   c. Design and implementation of the system (3 slides or more). It may includes your design choices, main data structures, approach to improving performance, the advantages and limitations of the current design
   d. What you have learned in this project (1-2 slide)
   e. Any future work (1-2 slide)
   f. Summary/Conclusions (1 slides)
   g. References or acknowledgment if your project used others’ work
4. Each team has 30-40 minutes for demo and presentation.
5. Each team should also get prepared for questions.
